Reliable protection made for your rental properties.

Hi Sample,

As a landlord, you have risks that typical homeowners don't. So you need more than a standard home policy to protect your property — and the income it provides.

Allstate has designed insurance for your rental property and budget.

- **Dwelling protection** for your rental and attached areas, like a garage or deck.
- **Other structures protection** for other buildings on your property, like a shed.
- **Liability protection** if you're sued after a property-related loss or accident.
- **Medical cost protection** helps pay medical bills if a guest is injured at your rental.
- **Fair rental income protection** helps pay lost rental income after a covered loss.

Want to maximize your savings? **Bundle your rental property policy with home and auto and you can save up to 35%.*** Call for a quote today.

Sincerely,
